PROFILE

A highly motivated Informatics Engineering student from Universitas Jenderal Soedirman. Equipped with profound knowledge as a Junior Fullstack Web Developer with a deep passion for web development. Possess robust technical skills in JavaScript, React.js, Next.js, and Tailwind CSS. Actively participated in various projects, internships, and organisational involvement. These experiences have assisted me in honing my technical knowledge, coordination, leadership, and problem-solving abilities. Dedicated to creating efficient, user-friendly web solutions and continuously improving my skills in the dynamic field of web development.

EDUCATION

Universitas Jenderal Soedirman   **Purwokerto, Central Java**
Department of Informatics, Faculty of Engineering / Bachelor's Degree, S-1   *Aug 2015 – Mar 2023*

SMA Sultan Agung   **Jakarta**
Natural Science Major (IPA)   *2012 – 2015*

WORK & INTERNSHIP EXPERIENCE

Beyond Astro   **Purwokerto, Central Java (Remote)**
Freelance web developer   *Apr 2023 – Nov 2023*

- Implemented web designs using JavaScript, Node.js, and React.js, ensuring responsive and dynamic user interfaces.
- Utilized Scrum methodology for project development, facilitating teamwork, timely deliveries, and continuous improvement.
- Documented backend processes using Swagger, creating comprehensive and clear API documentation for ease of future development.
- Conducted testing and maintenance of web applications using Jest, identifying and resolving issues to maintain high performance.
- Collaborated with various teams to align project goals with client requirements, ensuring a user-centric web development process.
- Enhanced code quality through code reviews and refactoring, adhering to industry best practices and maintaining scalable codebases.

Dinas Koperasi dan UMKM Purbalingga   **Purbalingga, Central Java**
Internship   *Jan 2018 – Jun 2018*

- Designed a user-friendly interface to streamline financial tracking and reporting, improving data accessibility and accuracy
- Coordinated with a multidisciplinary team to gather & analyse system requirements, ensuring the solution was robust and scalable.
- Identified and resolved technical issues through rigorous testing and debugging, significantly enhancing the system's reliability
- Documented the entire development process, including detailed system architecture, code annotations, and user instructions
- Assisted in daily operational activities, gaining in-depth knowledge of company policies, protocols, and processes.
- Created daily reports and compiled them into final reports to be submitted to the supervisor.

ORGANIZATIONAL & COMMITTEE EXPERIENCE

Himpunan Jurusan Informatika   **Purwokerto, Central Java**
Member   *2017*

- Created a comprehensive archive of organisational history, capturing the essence and achievements of various events.
- Collaborated with team members to brainstorm, plan, and implement programs that enhanced the organisation's visibility
- Managed program schedules effectively, meeting all deadlines and ensuring smooth implementation.
- Documented program activities and outcomes, facilitating smooth transitions and knowledge transfer within the organisation.

Student Orieantion Program - Himpunan Jurusan Informatika   **Purwokerto, Central Java**
Committee Member   *2016 – 2017*

- Assisted new students during the orientation program, helping them acclimate to university life and feel welcome.
- Planned and arranged all aspects of the orientation program, ensuring a structured and engaging experience for new students.
- Ensured the safety and welfare of students during events while promptly addressing any issues that arose.
- Provided detailed information and support regarding campus life and activities, ensuring new students felt supported.
- Coordinated with other committee members to organise and oversee various orientation activities, ensuring they ran effectively.

Chairman Election - BEM Universitas Jenderal Soedirman   **Purwokerto, Central Java**
Committee Member   *2016*

- Collaborated with team members to design and implement a fair and transparent election process.
- Managed the election schedule, ensuring all activities were completed on time and stakeholders were informed.
- Oversaw all aspects of the election, from venue setup to ballot counting, ensuring a smooth process.
- Documented all election activities and outcomes, providing a clear and verifiable election record.
- Coordinated logistics such as venue setup, voting materials, and security arrangements, ensuring the event ran smoothly.
- Provided clear information about election procedures and rules, fostering an inclusive and transparent environment.
